Product highlights

Philips Krypton bulb

A miniature bulb in which Krypton gas is used to increase the light output up to 70% more than a standard bulb.

Pre-focused beam

Thanks to a pre-shaped lens and/or reflector the beam provides the most optimal light output and focus.

Shock resistant

A special shock resistant plastic or rubber housing prevents damage to your flashlight caused by shocks.

Anti-roll bar

A special shape in the housing of the lamp makes sure it will not roll away on a sloping surface and thus keeps your flashlight always close at hand.
